HOPE

**@ Learn2
Learn**

OUR MISSION

To provide specialised training in order to develop the natural skills and cognitive potential of individuals and organisations In all contexts and at all levels.

OUR TARGET GROUP

EVERY SCHOOL GOING LEARNER FROM GRADE 4 UPWARDS.

HOW WILL DONATIONS BE UTILIZED?

A fundamental cause for educational underachievement is that learners lack the essential skills needed to manage themselves and their studies. Donations will thus be utilized for this purpose, with the aid of our time-tested educational workshop-programme known as EDUTECH Master Learner (EML).

EML is an integrated Skills Development Programme with the focus on equipping participants in becoming effective continuous Learners, in both formal and informal learning environments.

Our motto mainly being **LEARNING IS FUN** together with our main objective of each learner being responsible for their own development, is all included in this workshop.
