

Dear Paragon Generation :

I don't even know where to start. I have had an amazing experience at this programme and i never regret coming here. I have grown alot since my time with paragon, not just academically but mentally and emotionally as well. I had a huge lack of confidence and The Paragon Generation has helped me with that, I can now speak up in class, ask questions, give my opinion on the work topic and discuss work in front of a class without feeling anxious. I CAN, I HAVE, I WILL, so simple yet so powerful. Thank you so much for that motivation it really helped. Now for the main part, my academic performance. I've always done well in my school work but have'nt quite done my best. With the help of paragon Generation's methods I was able to give more and see results. Studying became much easier and less stressful. It became easier to study because there was not only one way i could study but more than one method and that made studying less 'BORING'. you have to stay consistent though. Im not the best in my grade but Im doing much better in my subjects than before. This year Ive managed to make it in the top 20 learners of grade 11 and I came in 5th position. To me that's a great achievement and I never thought I could achieve that. So thank you so much for your guidance it has really been a great help. Another great thing about Paragon is, they always make me feel welcome and that they made me feel like I was able to do anything I put my mind to. Thank you once again Paragon Generation for allowing me to be a part of this programme. you have built me up in so many ways and I am so so grateful for all that you have done.
